## **Independent Auditor's Report**

Board of Trustees  
Byron Fire Protection District  
Byron, Illinois

### **Report on the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Byron Fire Protection District, as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Byron Fire Protection District, Illinois as of August 31, 2022, and respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Byron Fire Protection District, Illinois and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Byron Fire Protection District, Illinois' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Byron Fire Protection District, Illinois' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Byron Fire Protection District, Illinois' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that a management's discussion and analysis, the budgetary comparison information, multiyear schedule of changes in net pension liability and related ratios, and multiyear schedule of IMRF contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule listed in the table of contents as "Other Information" is presented for the purpose of additional analysis and is not a part of the financial statements and has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## **Other Matter**

Byron Fire Protection District, has omitted a management's discussion and analysis that accounting principles generally accepted in the United States require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

## Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

August 31, 2022

---

Total fund balances - governmental funds	\$ 13,067,804
Amounts reported for governmental activities in the statement of net position are different because:	
Accrued long-term employee benefits are not due and payable in the current period and therefore are not reported as liabilities of the funds, but are included as liabilities and deferred items in the statement of net position	(5,029,764)
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The net book value of capital assets as reported:	6,624,557
Internal services funds are used to charge the costs in insurance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	1,282,226
Long-term liabilities, including compensated absences and other post-employment benefits are not due and payable in the current period and therefore are not reported in the funds.	(215,728)
<hr/>	
Total net position - governmental activities	<u>\$ 15,729,095</u>

## Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the year ended August 31, 2022

---

Net change in fund balance	\$ 147,137
Amounts reported for governmental activities in the statement of activities are different because:	
The increase in the net pension liability recorded on the government-wide statements is not recorded in the governmental funds because it does not affect current expenditures. This is the change in the net pension liability in the period.	(1,109,094)
The decrease in the other post-employment benefits recorded on the government-wide statements is not recorded in the governmental funds because it does not affect current expenditures. This is the decrease in the other post-employment benefits in the period.	-
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense. This is the amount by which depreciation expense exceeds capitalized fixed assets in the period.	(528,501)
The net effect of various transactions involving capital assets (i.e., disposals and sales) is to decrease net position	
In the statement of activities, postretirement obligations, net pension obligations, and deferred sources are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year net pension liabilities and related deferred outflows exceed the amount paid by.	1,585,595
Compensated absences are reported in governmental funds as expenditures when paid. However, the increase in liability is recorded in the statement of activities. This is the increase in liability expensed in the period.	(3,250)
Internal services funds are used to charge the costs in insurance to individual funds. The net revenue and transfer of certain activities of internal service funds is reported with governmental activities.	(443,929)
<b>Change in net position of governmental activities</b>	<b>\$ (352,042)</b>

See accompanying notes to financial statements.

## Notes to Financial Statements

---

### **Note 1 Summary of Significant Accounting Policies**

#### **Reporting Entity**

The District operates under a board of trustees' form of government. The District's major operations include fire protection and ambulance services.

In evaluating how to define the government, for financial reporting purposes, the District has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic - but not the only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity is conducted within the geographic boundaries of the District and is generally available to its residents. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities.

The District is considered to be a primary government pursuant to GASB Statements since it is legally separate and financially independent. This report includes all of the funds and account groups of the District. It includes all activities considered to be part of (controlled by or dependent on) the District as set forth under the GAAP criteria.

#### **Government Wide, Fund Financial Statements and Basis of Accounting**

The government wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Earnings on investments are not included among program revenues, but are reported instead as general revenue.

Separate financial statements are provided for governmental funds and proprietary funds. Fiduciary funds for which the District maintains a Fiduciary or Agent responsibility are not presented in the government wide financial statements.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 1 Summary of Significant Accounting Policies (Continued)

#### Government Wide, Fund Financial Statements and Basis of Accounting (Continued)

Earnings on investments are not included among program revenues, but are reported instead as general revenue.

Separate financial statements are provided for governmental funds and proprietary funds. Fiduciary funds for which the District maintains a Fiduciary or Agent responsibility are not presented in the government wide financial statements.

The government wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all the eligibility requirements imposed by the provider have been met.

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the District:

#### Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. Governmental fund financial statements are reported using the modified accrual basis method of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. The following is a description of the governmental funds of the District:

1. General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 1 Summary of Significant Accounting Policies (Continued)**

#### **Government Wide, Fund Financial Statements and Basis of Accounting (Continued)**

#### **Governmental Funds (Continued)**

2. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for a particular purpose.

#### **Proprietary Fund**

The focus of the proprietary funds measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

A proprietary fund is a fund in which a fee is charged to external users of goods and services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on pricing policy designed to recover similar costs.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges to employees for insurance coverage. Operating expenses for internal service funds include the administrative expenses and insurance premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### **Major Funds**

The District reports the following major funds:

#### ***Governmental Funds:***

**General Fund:** The general fund is the general operating fund of the District. It is used to account for all the financial resources except those required to be accounted for in another fund.

**Ambulance Fund:** To account for the ambulance activities of the District. Financing is through property taxes, ambulance fees and interest income.

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 1 Summary of Significant Accounting Policies (Continued)**

#### **Government Wide, Fund Financial Statements and Basis of Accounting (Continued)**

#### **Governmental Funds (Continued)**

##### ***Proprietary Funds:***

Insurance Fund: To account for the insurance costs related to the District. Funding is provided by interest income.

##### ***Fiduciary Funds:***

The District fire employees participate in the Fire Pension Fund, a fiduciary component unit of the District. The Fire Pension fund functions for the benefit of these employed and is governed by a five-member pension board. Two members appointed by the board of trustees, one elected by retirees and two elected by active members constitute the pension board. The District is obligated to fund all Fire Pension costs not funded by the Fire Pension Fund participants based upon actuarial valuations which creates a financial burden on the District. The State of Illinois is authorized to establish benefit levels and the District is authorized to approve the actuarial assumptions used in the determination of contribution levels, which results in the Fire Pension Fund being fiscally dependent on the District. The Fire Pension Fund is reported as a pension trust fund. The Fire Pension Fund does not issue a separate report.

#### **Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be checking, savings, money markets, and short-term investments with original maturities of three months or less from the date of acquisition.

#### **Investments**

The District invests in accordance with Illinois Compiled Statutes 30 ILCS 235 under the Public Funds Investment Act. Investments are reported at fair value which is determined using selected bases. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

#### **Property Taxes**

The District in which the District resides is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation. The 2020 and 2021 levies were passed by the Board in November 2020 and November 2021. Property taxes become a lien on the first day of the levy year and may be paid in two equal installments. The first installment is due approximately on or before June 1 and the second installment is due approximately on or before September 1. Payments made after the September 1 installment date are assessed interest at the rate of 1% for farmland and 1-1/2% for all others.

### Note 1 Summary of Significant Accounting Policies (Continued)

#### Pensions

For purposes of measuring the net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and Firefighter Pension additions to/deductions from the pensions' fiduciary net position have been determined on the same basis as they are reported by IMRF and pension trust funds. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Other Post-Employment ("OPEB") Obligations

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and to OPEB expense, information about the plan net position and additions to/deductions from the plan net position has been determined on the same basis as they are reported by the plan. For this purpose, OPEB payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment are reported at fair value.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

The District has one type of this item that qualifies for reporting in this category. Accordingly, the item, deferred outflows of pension resources is reported in the governmental wide statement of net position. These amounts are deferred and recognized as an outflow of resources in the period that the amounts become available.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two types of items that qualify for reporting in this category. Accordingly, the items, deferred inflows of pension resources and property taxes are both reported in the governmental wide, and only the property taxes are reported in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 1 Summary of Significant Accounting Policies (Continued)

#### Deferred Outflows/Inflows of Resources

The District has deferred inflows in the amount of \$3,757,994 from the 2021 tax levy. This revenue will be recognized in the fiscal year ending August 31, 2023. During the fiscal year ending August 31, 2022, the District recognized \$3,579,415 of revenue deferred from the 2020 tax levy.

#### Compensated Absences

Permanent full-time employees accrue and receive vested rights in vacation, personal, and sick pay according to their years of continuous service. Additionally accumulated vacation personal, and sick pay which is not subject to forfeiture will be paid to employees upon separation from Byron Fire Protection District's service.

Vacation, personal, and sick pay is expensed when incurred/paid in the governmental funds. All accumulated unpaid vacation pay, personal pay, and sick pay is reported in the government-wide financial statements.

#### Accounts Receivable

Receivables at August 31, 2022, for the Ambulance Fund are net of allowance for uncollectable. The allowance for uncollectable in the Ambulance Fund was \$78,000 at August 31, 2022.

#### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Fund Balances

The District follows fund balance reporting definition that provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used.

- Non-spendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation. The District reports a restricted fund balance within the Ambulance fund in the amount of \$2,053,372 for ambulance services;

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 1 Summary of Significant Accounting Policies (Continued)

#### Fund Balances (continued)

- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint; The District reports a committed fund balance within the general fund for the following purpose:

Committed for future capital expenditures	<u>\$8,336,566</u>
---	--------------------

- Assigned fund balances – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegate the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

The Board establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets construction, debt service, or other purpose).

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when amounts expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classification could be used.

### Note 2 Deposits and Investments

**Deposits.** At year-end, the carrying amount of the District's deposits in checking, money market accounts, savings accounts and certificates of deposit was \$7,654,120 and the bank balance was \$7,442,332. Of the bank balance, \$7,442,332 was covered by Federal Depository Insurance or by collateral held by pledging bank's trust department or by its agent in the District's name and \$-0- was uninsured.

The District has no foreign currency risk for deposits at year end.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 2 Deposits and Investments (continued)

**Investments.** As of August 31, 2022 , the District's investments were as follows:

	<b><u>Fair Value</u></b>
<i>Governmental Activities:</i>	
CDs & BAs	\$5,141,236
Corporate bonds	135,560
Mortgage pools	56,117
Muni bonds	1,577,224
U.S. Government obligations	2,092,265
<hr/>	
Total	\$9,002,403
<hr/>	
<i>Pension Trust Funds:</i>	
Annuities	\$ 766,906
Illinois firefighters pension investment fund	11,299,023
<hr/>	
Total	\$12,065,929
<hr/>	

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District has no specific policy on the interest rate risk at year-end.

Information about the sensitivity of the fair values of the District investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

# Byron Fire Protection District

<i>Pension Trust Funds:</i>				
Illinois firefighters pension investment fund			<u>\$11,299,023</u>	<u>\$11,299,023</u>

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investments in U.S. Government obligations are not considered to be of any credit risk since they carry the full obligation and guarantee of the U.S. Government.

Presented on the next page is the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type:

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy, as described under current accounting standards, are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities.

# Byron Fire Protection District

## Notes to Financial Statements

### Note 2 Deposits and Investments (Continued)

#### Credit Risk (continued)

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or inputs other than quoted prices that are observable for the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table presents the District's approximate fair value hierarchy for the assets measured at fair value on a recurring basis as of August 31, 2022:

	Total	Fair Value Measurements at Reporting Date Using		
		(Level 1)	(Level 2)	(Level 3)
<b>Assets measured at fair value on a recurring basis:</b>				
Governmental activities:				
Certificates of deposits	\$5,141,236	\$ -	\$5,141,236	\$ -

<b>Total pension trust</b>	<b>\$12,065,929</b>	<b>\$ -</b>	<b>\$12,065,929</b>	<b>\$ -</b>

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 2 Deposits and Investments (Continued)**

#### **Custodial Credit Risk**

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

As of August 31, 2022 there are no investments with custodial credit risk in that all of its investments are insured.

#### **Foreign Currency Risk**

The District has no foreign currency risk for investments at year end.

#### **Investment Information**

The District consolidated the investment of the Firefighters' Pension Fund with the Illinois Firefighters' Pension Investment Fund (IFPIF). The IFPIF is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate firefighter pension funds. IFPIF was created by Public Act 101-0610, and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IFPIF by Illinois suburban and downstate firefighter pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IFPIF. A schedule of investment expenses is included in IFPIF's annual report. For additional information on IFPIF's investments, please refer to their annual report as of June 30, 2021. A copy of that report can be obtained from IFPIF at 1919 South Highland Avenue, Building A, Suite 237, Lombard, IL 60148 or at [www.ifpif.org](http://www.ifpif.org). The Fund transferred all eligible assets to the Investment Fund on October 1, 2021.

At year-end the Firefighters' Pension Fund has \$11,299,023 invested in IFPIF, which is measured at the Net Asset Value (NAV) per share as determined by the pool. The pooled investments consist of the investments as noted in the target allocation table available at [www.ifpif.org](http://www.ifpif.org).

IFPIF's current investment policy was adopted by the Board of Trustees on December 21, 2021. IFPIF is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The IFPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 4 of the Illinois Pension Code.

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 3 Property, Plant, and Equipment**

Capital assets, which include buildings, land improvements, construction in progress and equipment are reported in the government-wide financial statements. The District defines capital assets as assets with an initial individual cost of more than \$5,000, \$10,000 for buildings and improvements, and an estimated useful life in excess of one year.

Such assets are recorded at historical cost if purchased or constructed. Donated assets are stated at acquisition value as of the date of donation. The cost of normal maintenance and repair that do not add to the value of the asset or materially extend the useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. All capital assets, except construction in progress, are being depreciated using the straight-line method over the following useful lives:

Buildings & Improvements	20 - 50 years
Equipment	3 - 7 years
Vehicles	6 - 20 years

Capital assets in the governmental fund financial statements are reported as expenditures when incurred.

The governmental activities capital asset activity for the year ended August 31, 2022 is as follows:

# Byron Fire Protection District

### Note 4 Long-Term Liabilities

Changes in Long-Term Liabilities:

During the year ended August 31, 2022, the following changes occurred in the long-term liabilities:

	Balance September 1, 2021	Additions	Deletions	Balance August 31, 2022
Compensated absences	\$145,274	\$3,250	\$ -	\$148,524
Other post-employment benefits	67,204	-	-	67,204
Total long-term liabilities	\$212,478	\$3,250	\$ -	\$215,728

The District is subject to a debt limitation of 5.75% of its assessed valuation of \$686,479,318. As of August 31, 2022 the District had \$19,736,280 of remaining legal debt margin.

### Note 5 Pension Plan

#### Illinois Municipal Retirement Fund

##### *Plan Description*

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at [www.imrf.org](http://www.imrf.org).

All employees (other than those covered by the Firefighter Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### ***Benefits provided***

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

#### ***Employees Covered by the Benefit Terms***

As of December 31, 2021 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	4
Inactive employees entitled to but not yet receiving benefits	1
Active employees	3
<hr/>	
Total	8
<hr/>	

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### ***Contributions***

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2022 was 20.74%. For the fiscal year ended August 31, 2022, the District contributed \$47,883 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### ***Net Pension Liability***

The District's net pension liability was measured as of December 31, 2021. The total pension liability used to calculate the net pension liability was determined by an annual actuarial valuation as of that date.

#### ***Actuarial assumptions***

The following are the methods and assumptions used to determine total pension liability at December 31, 2021:

- The **Actuarial Cost Method** used was Aggregate Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.35% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.25%.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
- **Mortality** For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### *Actuarial assumptions (Continued)*

- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2021:

<b>Asset Class</b>	<b>Portfolio Target Percentage</b>	<b>Long-Term Expected Real Rate of Return</b>
Domestic Equity	39%	1.90%
International Equity	15%	3.15%
Fixed Income	25%	(0.60%)
Real Estate	10%	3.30%
Alternative Investments	10%	1.70-5.50%
Cash Equivalents	1%	(0.90%)
Total	100%	

#### **Single Discount Rate**

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

# Byron Fire Protection District

## Notes to Financial Statements

### Note 5 Pension Plan (Continued)

#### *Actuarial assumptions (Continued)*

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 1.84%, and the resulting single discount rate is 7.25%.

#### *Changes in Net Pension Liability*

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balance January 1, 2021	\$1,914,648	\$1,647,168	\$267,480
Service costs	22,732	-	22,732
Interest on total pension liability	136,981	-	136,981
Difference between expected and actual experience	(17,124)	-	(17,124)
Changes in assumptions	-	-	-
Employer contributions	-	47,680	(47,680)
Employee contributions	-	9,444	(9,444)
Net investment income	-	262,851	(262,851)
Benefit payments – net of refunds	(73,252)	(73,252)	-
Other changes	-	(2,230)	2,230
<b>Net changes</b>	<b>69,337</b>	<b>244,493</b>	<b>(175,156)</b>
<b>Balances as of December 31, 2022</b>	<b>\$1,983,985</b>	<b>\$1,891,661</b>	<b>\$92,324</b>

#### *Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate*

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	1% Decrease (6.25%)	Current Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability/(Asset)	\$333,819	\$92,324	(\$100,981)

# Byron Fire Protection District

## Notes to Financial Statements

### Note 5 Pension Plan (Continued)

#### ***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended August 31, 2022, the District recognized pension income of \$14,834. At August 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### ***Deferred Amounts Related to Pension***

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$19,365	\$ 11,765
Changes in assumptions	40	10,321
Net difference between projected and actual earnings	-	192,959
Employer contributions subsequent to the measurement date	30,406	-
<b>Total</b>	<b>\$49,811</b>	<b>\$215,045</b>

The District reported \$30,406 as deferred outflows related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability from the measurement period ending December 31, 2020.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

<b>Year Ending August 31:</b>	<b>Net Deferred Inflows of Resources</b>
2023	\$(41,916)
2024	(76,417)

### Note 5 Pension Plan (Continued)

#### Firefighter's Pension

##### *Plan description*

Fire sworn personnel are covered by the Firefighter's Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois Compiled Statutes (ILCS) (Chapter 40-Article 5/4) and may be amended only by the Illinois legislature. The District accounts for the plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board are appointed by the Fire Chief, one member is elected by pension beneficiaries and two members are elected by active firefighter employees.

At September 1st, 2021, the actuarial valuation date, the Firefighter's Pension Plan membership consisted of:

Inactive plan members or beneficiaries currently receiving benefits	9
Inactive plan members entitled to but not yet receiving benefits	16
Active plan members	<u>11</u>
Total	<u>36</u>

##### *Benefits provided*

The following is a summary of benefits of the plan as provided for in ILCS:

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits in two tiers depending on when a participant enters a plan. Tier I employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with 10 or more years of credible service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 5 Pension Plan (Continued)**

#### ***Benefits Provided (Continued)***

salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3.00% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1<sup>st</sup> after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Non-compounding increases occur annually, each January thereafter. The increase is the lesser of 3.00% of ½ of the change in the Consumer Price Index for the proceeding calendar year.

#### ***Contributions***

Covered employees are required to contribute 9.455 percent of the salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The District is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. The District's contributions must accumulate to the point where the past service cost for the Firefighter's Pension Plan is fully funded by the year 2034.

#### ***Investment policy***

ILCS limit the Fire Pension Fund's investments to those allowable by ILCS and require the Fire Pension Fund's Board of Trustees to adopt an investment policy which can be amended by a majority vote of the Board of Trustees. The Fire Pension Fund's investment policy authorizes the Fire Pension Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, investment grade corporate bonds and Illinois Funds.

The Fire Pension Fund may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, Illinois insurance company general and separate accounts, mutual funds and corporate equity securities and real estate investment trusts.

The Fire Pension Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### *Investment policy (continued)*

<u>Asset Class</u>	<u>Long-Term Expected Rate of Return</u>	<u>Long-Term Inflation Expectations</u>	<u>Long-Term Expected Real Rate of Return</u>
Large Cap Domestic Equity	8.00%	2.30%	5.80%
Small Cap Domestic Equity	9.80%	2.30%	7.60%
International Equity	9.30%	2.30%	7.10%
Fixed Income	3.60%	2.30%	1.30%

ILCS limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in August 2020 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major assets class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of August 31, 2021 are listed in the table above.

#### ***Investment Valuations***

All investments in the plan are stated at fair value and are recorded as of the trade date. Fair value is based on quoted market prices at August 31 for debt securities, equity securities and mutual funds and contract values for insurance contracts. Illinois Funds, an investment pool created by the state legislature under the control of the State Treasurer, is a money market mutual fund that maintains a \$1 per share value.

#### ***Investment Concentrations***

There are no significant investments (other than U.S. Government guaranteed obligations) in any one organization that represent 5% or more of the Fire Pension Fund's investments.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### ***Investment Rate of Return***

For the year ended August 31, 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.50%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### ***Deposits with Financial Institutions***

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fire Pension Fund's deposits may not be returned to them. The Fire Pension Fund's investment policy requires all bank balances to be covered by federal depository insurance.

#### ***Interest Rate Risk***

The following table presents the investments and maturities of the Fire Pension Fund's securities as of August 31, 2022:

Investment Type	Fair Value	Investment Maturities (in Years)		
		Less than 1	1-5	6-10
Illinois firefighters pension investment fund	\$11,299,023	\$ -	\$ -	\$11,299,023

In accordance with its investment policy, the Fire Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for expected current cash flows. The investment policy does not limit the maximum maturity length of investments in the Fire Pension Fund.

#### ***Credit Risk***

The Fire Pension Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government, securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and investment grade corporate bonds rated at or above BBB-by Standard and Poor's, Baa3 by Moody's and BBB-by Fitch by at least two of the three rating agencies. The fixed income securities are rated A1 to Aaa by Moody's. However, certain fixed income securities are not rated.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

#### ***Custodial Credit Risk***

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fire Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fire Pension Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fire Pension Fund's agent separate from where the investment was purchased in the Fire Pension Fund's name. The money market mutual funds and equity mutual funds are not subject to custodial credit risk.

#### ***Net Pension Liability***

The components of the net pension liability of the Fire Pension Fund as of August 31, 2021 calculated in accordance with GASB Statement No. 67 were as follows:

Total pension liability	\$17,092,075
Plan fiduciary net position	12,353,814
District's net pension liability	4,738,261
Plan fiduciary net position as a percentage of the total pension liability	72.3%

See the schedule of changes in the employer's net pension liability and related ratios in the required supplementary information for additional information related to the funded status of the Fire Pension Fund.

#### ***Actuarial Assumptions***

The total pension liability above was determined by an actuarial valuation performed as of August 31, 2021 using the following actuarial methods and assumptions.

Actuarial valuation date	September 1, 2021
Actuarial cost method	Entry age normal (level % pay)
Amortization method	Straight Line
Asset Valuation Method	Market Value
Assumptions:	
Investment rate of return	6.50%
Projected salary increases	4.00-4.75%
Aggregate payroll increases	3.25%
Inflation rate included	2.25%

# Byron Fire Protection District

## Notes to Financial Statements

### Note 5 Pension Plan (Continued)

#### *Actuarial Assumptions (continued)*

Mortality rates were based on rates developed in a RP2000BlueM Table for Illinois Fire Fighters. Other demographic assumption rates were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated September 1, 2016.

#### *Changes in Net Pension Liability*

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balance August 1, 2021	\$17,912,563	\$14,549,193	\$3,363,370
Service costs	251,896	-	\$ 251,896
Interest on total pension liability	1,055,712	-	1,055,712
Difference between expected and actual Experience	(1,282,428)	-	(1,282,428)
Changes in assumptions	-	-	-
Employer contributions	-	524,900	(524,900)
Changes in benefit terms	-	-	-
Employee contributions	-	99,009	(99,009)
Other contributions	-	-	-
Net investment income	-	(1,960,796)	1,960,786
Benefit payments – net of refunds	(845,848)	(845,848)	-
Other changes	-	(14,445)	14,445
Net changes	(820,488)	(2,195,379)	1,374,891
Balances as of August 31, 2022	\$17,092,075	\$12,353,814	\$4,738,261

#### *Discount Rate*

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fire Pension Fund's fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments of 6.50% was blended with the index rate of 2.97% for tax exempt general obligation municipal bonds rated AA or better at August 31, 2020 to arrive at a discount rate of 6.50% used to determine the total pension liability.

# Byron Fire Protection District

## Notes to Financial Statements

### Note 5 Pension Plan (Continued)

#### *Discount Rate Sensitivity*

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate of 6.50% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.50%) or 1 percentage point higher (7.50%) than the current rate:

	<b>1% Decrease (5.50%)</b>	<b>Current Discount Rate (6.50%)</b>	<b>1% Increase (7.50%)</b>
Net pension liability	\$7,000,179	\$4,738,261	\$2,876,966

#### *Deferred Outflows of Resources and Deferred Inflows of Resources Related to Fire Pension Fund*

For the year ended August 31, 2022, the District recognized pension expense of \$153,027. At August 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows Of Resources</b>	<b>Deferred Inflows Of Resources</b>
Differences between expected and actual experience	\$1,111,522	\$1,407,832
Changes in assumptions	410,270	1,494,339
Net difference between projected and actual earnings	1,342,241	-
<b>Total</b>	<b>\$2,864,033</b>	<b>\$2,902,171</b>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ending August 31:</b>	<b>Net Deferred Inflows of Resources</b>
2023	\$(83,726)
2024	(177,405)
2025	(18,030)
2026	493,405
2027	(128,628)
Thereafter	(123,745)
<b>Total</b>	<b>\$(38,129)</b>

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 5 Pension Plan (Continued)

**Aggregate Pension Amounts:** At August 31, 2022, the District reported the following from all pension plans:

	Fire Pension	IMRF	All Pension Plans
Net pension liability (asset)	\$4,738,261	\$92,324	\$4,830,585
Deferred outflows of resources	2,864,033	49,811	2,913,844
Deferred inflows of resources	2,902,171	215,045	3,117,216
Pension expense	153,027	(14,834)	138,193

### Note 6 Other Post-Employment Benefits

#### *Plan description*

In addition to providing the pension benefits described, the District provides post-employment healthcare benefits (OPEB) for retired employees through a single employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contribution are governed by the District and can be amended by the District through its personnel manual and union contracts. Retirees are 100% responsible for the premium cost. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental type activities.

#### *Benefits provided*

The District provides continued health insurance coverage at the active employer rate to all eligible employees. To be eligible for the benefits, an employee must qualify for retirement under one of the District's retirement plans.

#### *Membership*

At August 31, 2022, membership consisted of:

Retirees and beneficiaries currently receiving benefits	3
Active vested plan members	6
Active non-vested plan members	<u>8</u>
Total	<u>17</u>
Number of participating employers	<u>1</u>

#### *Funding policy*

For the fiscal year ending August 31, 2022, the employer contributed approximately \$4,200. The District is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the plan until retirement.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 6 Other Post-Employment Benefits (Continued)

#### *Funding policy (continued)*

The funded status of the plan as of August 31, 2022, was as follows:

Actuarial accrued liability (AAL)	\$67,204
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	67,204
Funded ratio (actuarial value of plan assets/AAL)	-
Covered payroll (active plan members)	1,091,946
UAAL as a percentage of covered payroll	6.15%

#### *Assumptions and Other Inputs*

*Actuarial assumptions.* The total OPEB liability was determined by an actuarial valuation as of August 31, 2021, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified.

Actuarial valuation date	August 31, 2021
Actuarial cost method	Entry age normal
Discount rate	1.95%
Salary increase	3.50%
Rate of return	2.33%

Mortality rates: for retirement and beneficiary annuitants were based according to RO2014 based rates projected to 2021 using scale MP2021.

Participation: 50% of employees currently enrolled in medical plans were assumed to participate in the plan.

Health care cost trends: actual trend used for fiscal year 2021. For fiscal years after, trend started at 8.5% and gradually decreases to an ultimate trend of 4.5%.

# Byron Fire Protection District

## Notes to Financial Statements

### Note 6 Other Post-Employment Benefits (Continued)

#### *Changes in total OPEB liability*

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at September 1, 2021	\$67,204	\$ -	\$67,204
Changes for the year:			
Service cost	-	-	-
Interest	-	-	1,483
Changes in benefit terms	-	-	-
Differences between expected and actual experience	-	-	1,934
Changes in assumptions	-	-	2,259
Benefit payments	-	-	(4,200)
Net changes	-	-	1,476
Balance at August 31, 2022	\$67,204	\$ -	\$67,204

#### ***Deferred Outflows and Inflows***

*Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs.* Deferred outflows of resources are the consumption of net position by the system that is applicable to future reporting periods.

#### ***Deferred Outflows and Inflows Obligation***

The district's Deferred Outflows and Deferred Inflows of Resources by Sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 1,934	\$ -
Changes in assumption	2,259	-
Net difference between projected and actual earnings on OPEB plan investments	-	-
OPEB contributions made subsequent to the measurement date	-	-
Total	\$4,193	\$ -

# Byron Fire Protection District

## Notes to Financial Statements

### Note 6 Other Post-Employment Benefits (Continued)

#### *Deferred Outflows and Inflows Obligation (continued)*

OPEB Collective Deferred Outflows and Deferred Inflows of Resources by Year to be Recognized in Future OPEB Expenses:

Year ended August 31:	Net Deferred Outflows of Resources
2021	\$838
2022	838
2023	839
2024	839
2025	839
Thereafter	-
<b>Total</b>	<b>\$4,193</b>

#### ***Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate***

The following presents the plan's net OPEB liability, calculated using a Single Discount Rate of 1.95%, as well as what the plan's net OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (2.95%) or lower (.95%) than the current rate:

#### ***Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate (Continued)***

##### Sensitivity of Net OPEB Liability as of August 31, 2021 to the Single Discount Rate Assumption

	1% Decrease (.95%)	Current Single Discount Rate Assumption (1.95%)	1% Increase (2.95%)
Net OPEB liability	\$74,986	\$67,204	\$60,652

#### ***Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate***

The following presents the plan's net OPEB liability, calculated using the healthcare cost trend rates of well as what the plan's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 6 Other Post-Employment Benefits (Continued)

#### Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate (continued)

Sensitivity of Net OPEB Liability as of August 31, 2021 to the Healthcare Cost Trend Rate Assumption			
	1% Decrease (A)	Healthcare Cost Trend Rates Assumption	1% Increase (B)
	N/A	N/A	N/A
Net OPEB liability	\$67,204	\$67,204	\$67,204

(A) Healthcare trend rates that are 1 percentage point higher than the trend rates used for the actuarial valuation

(B) Healthcare trend rates that are 1 percentage point lower than the trend rates used for the actuarial valuation

### Note 7 Self-Insurance

The District is partially self-insured for liability claims against it. A reserve has been established from which claims in excess of the District's liability insurance will be paid. Various policies of the District will cover up to \$1,000,000 of liability claims while the umbrella policy has a limit of \$5,000,000. Any claims in excess of these amounts will be paid from the Self-Insurance Fund. Premiums for general insurance coverage, unemployment and workers compensation coverage are paid from the self-insurance fund.

### Note 8 Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. In order to handle such risks of loss, the District purchases commercial insurance coverage. The deductibles in effect through these policies as of August 31, 2022 ranged from \$-0- to \$2,500. The amounts of settlements have not exceeded insurance coverage for any of the past three years. See Note 7 for an explanation of Self-Insurance.

### Note 9 Economic Dependency

Because Exelon's nuclear plant's assessed valuation represents nearly 75% of the District's total assessed valuation, it is economically dependent upon Exelon in order to maintain its current level of services to the public.

# Byron Fire Protection District

## Notes to Financial Statements

---

### Note 10 Contingencies

During the fiscal year end 2009, a four year agreement was made between Exelon and the taxing bodies for the Annual Credit Trigger Amounts. This agreement wiped away all (3) years worth of appealed EAV's filed with PTAB plus defined the EAV of the Exelon Byron Nuclear Station for tax years 2008, 2009, 2010 and 2011. This agreement started the EAV of the Exelon Byron Nuclear Station at \$450,000,000 for 2008 and adds \$10,000,000 every year thereafter with an ending EAV of \$480,000,000 for tax year 2011. The agreement expired at the end of the 2013 fiscal year. The current assessment is under appeal until an agreement is made between the taxing bodies and Exelon. The outcome of the appeal cannot be reasonably determined at this time. The financial statements do not reflect any adjustment that may be necessary for the future outcome of this appeal.

### Note 11 Restricted Net Position

The following restricted net position existed as of August 31, 2022

Restricted for Ambulance	<u>\$2,053,372</u>
Restricted for Insurance	<u>\$1,282,226</u>
Fiduciary fund:	
Held in trust for pension benefits	<u>\$12,353,814</u>

### Note 12 Pending Accounting Pronouncements

GASB Statement No. 91, Conduit Debt Obligations, clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by the issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The District has not determined the effect of this Statement.

GASB Statement No. 92, Omnibus 2020, improves the consistency of several practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The District has not determined the effect of this Statement.

GASB Statement No. 93, Replacement of Interbank Offered Rates, amends certain hedge accounting from GASB Statement No. 53 and variable lease payments in accordance with GASB Statement No. 87. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021. The District has not determined the effect of this Statement.

# Byron Fire Protection District

## Notes to Financial Statements

---

### **Note 12 Pending Accounting Pronouncements (Continued)**

GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, provides more guidance for accounting and financial reporting for availability payments arrangements. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The District has not determined the effect of this Statement.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA), defines a SBITA, establishes a right-to-use subscription asset and liability, provides the capitalization criteria for outlays other than subscription payments, and requires note disclosures regarding a SBITA. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The District has not determined the effect of this Statement.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, amends GASB Statements Nos. 14 and 84, and a suppression of GASB Statement No.32, provides more guidance for determining whether a primary government is financially accountable for a potential component unit, when the financial burden criterion in paragraph 7 of GASB Statement No. 84 applies, and this statement clarifies that GASB Statement No. 84 should applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged if GASB Statement No. 84 has been implemented. The District has not determined the effect of this Statement.

# Byron Fire Protection District

## Multiyear Schedule of Changes in Net Pension Liability and Related Ratios

IMRF Regular Plan - Last Ten Calendar Years

(Schedule to be built prospectively from 2014)

Required Supplementary Information

Calendar Year Ending December 31,

	2021	2020	2019	2018	2017	2016	2015	2014

### **Note 1 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2021 Contribution Rate for IMRF \***

#### **Valuation date:**

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

#### **Methods and Assumptions Used to Determine 2020 Contribution Rates:**

Actuarial Cost Method Aggregate Entry Age Normal

Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 22-year closed period.  
Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 17 years for most employers (five employers were financed over 18 years; one employer was financed over 19 years; two employers were financed over 20 years; three employers were financed over 26 years; four employers were financed over 27 years and one employer was financed over 28 years).

Asset Valuation Method 5-Year smoothed market; 20% corridor

Wage growth 3.25%

Price Inflation 2.50%

Salary Increases 3.35% to 14.25% including inflation

Investment Rate of Return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.

### **Note 1 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2021 Contribution Rate for IMRF \* (Continued)**

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

#### **Other Information:**

Notes There were no benefit changes during the year.

*\* Based on Valuation Assumptions used in the December 31, 2019 actuarial valuation.*

### **Note 2 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2021 Contribution Rate for OPEB**

#### **Summary of Actuarial Assumptions**

Actuarial Cost Method	Entry Age Normal
Discount (Interest) Rate	1.95%
Salary Increase	3.50%
Mortality	Probabilities of death for participants were according to RP2014 base rates projected to 2019 using scale MP2019 was used.
Participation	50% of employees currently enrolled in medical plans were assumed to participate in the plan
Rate of return	2.33%

### **Note 3     Budgets**

The term "budget" used throughout the financial statements represents the estimated revenues and appropriations as set forth in the District's annual appropriation ordinance adopted for the fiscal year ended August 31, 2022. Budgets are adopted on a basis consistent with the modified accrual basis of accounting.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. At least 30 days prior to approving the budget, the Board proposes a means of financing expenditure appropriations for the fiscal year commencing on September 1.
- b. Normally at the board meeting in October of the current fiscal year, the budget is legally enacted through passage of the appropriation ordinance.
- c. Budgeted amounts are as originally reported or as amended by the District. No amendments occurred during fiscal year 2022.
- d. Unexpended budgeted amounts lapse at the end of the budget year. Spending control is established by the amount of expenditures budgeted for each object and purpose, but management control is exercised at budgetary line item levels.
- e. The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.
